

The Ultimate In Comfort And Safety

FRHAM TEX II

COMFORT

- Cools by actually transmitting moisture, rather than vapor, to the outside.
- Provides maximum breathability.
- Fabric is lightweight and comfortable to the skin.
- Durable bi-directional stretch material construction allows it to move with the body.
- Alleviates the discomfort of hot, expensive, plastic suits.

SAFETY

- Creates a total waterproof barrier.
- Hydrophilic monolithic barrier film (not microporous).
- Inherently acid-resistant.
- Alleviates leaching and personal skin contamination.
- Environmentally friendly.

EFFICIENCY

- Launderable/reusable.
- Maintains breathability after laundering.
- Certified incinerable for maximum volume reduction.
- Dramatic reduction of heat stress can extend working time by improving comfort level of workers.
- Cost efficient in every way.

Utilizing Our Innovative BALLISTIC CLOSURE SYSTEM

FRHAM TEX II offers supreme comfort and coolness, while simultaneously maintaining a total barrier - it keeps you dry from the outside, and dry on the inside. Now available for the first time, FRHAM TEX II: the ultimate in comfort, safety and efficiency.
