

CHIX DUST CLOTHS

CHIX MASSLIN and CHIX STRETCH'nDUST

In offices, schools, hospitals, manufacturing facilities, power plants, laboratories, control rooms, restaurants, cafeterias, etc; wherever dust can be a disaster, Chix towels belong.

Microban antimicrobial protection fights the bacteria, mold and mildew that cause odors and stains in the towel.

Where DUST Control is **Crucial...**

- Strong, durable and multi-use
- Stretching activates its dust catching pockets
- Stretch'N Dust's special treatment traps dust in the cloth
- Low linting, non-abrasive
- Safe and easy to use

Although both can be used for any dusting task, we recommend:

CHIX Stretch'N Dust for general housekeeping and when periodic dusting is needed.

CHIX MASSLIN for heavy dusting applications, floor dusting and large surface dusting when dust is caused by a heavy volume of people traffic.

These dusting towels are so versatile that in nuclear power plant facilities they are used to pick up dust not visible to the human eye. These high quality products assist you to present a clean and sanitary environment and helps you maximize user productivity, save labor and reduce maintenance cost.

CHUX Cloth-Like Paper Wipes

Made with wiping in mind. The first towel out of the box is the same as the last. Doesn't contain foreign particles, metal chips or by-products from previous use.

- **CONSISTENT HIGH QUALITY:** Made with wiping in mind. The first towel out of the box is the same as the last. Doesn't contain foreign particles, metal chips or by-products from previous use.
- **HIGH ABSORBENT:** Absorbs up to 8 times its weight in oil, grease and grime. Made of 100% pulp fiber: More absorbent than rags that contain nylon, polyester and other synthetic fibers.
- **DISPOSABLE:** No inventory or storage problems associated with used shop towels or rags. Eliminates the hazardous storage of used shop towels between deliveries.
- **ECONOMICAL:** Come in dispenser put-ups, reduces waste. Controls usage, saves money, and less expensive than rags and shop towels. More cost effective.
- **LOW LINT:** Ideal for use where a low lint wiper is preferred.
- **DURABLE:** Have a superior strength vs. other paper wipers: Can be rinsed and reused. Reduces the quality of wipers needed to do a job. Solvent compatible: Can stand up to harsh chemicals like MEK, Acetone and Alcohol.
- **CLOTH-LIKE:** Soft, familiar feel of cloth at a paper price.
